NOTICE OF PUBLIC COMMENT PERIOD REGARDING APPLICATION FOR AN AIR PERMIT FOR A CABINET MANUFACTURING FACILITY IN HUNTSVILLE, ALABAMA

Huntsville American Cabinets, Inc. has applied to the Division of Natural Resources for an Air Permit for a cabinet manufacturing facility located at 1201 Washington Street in Huntsville, Alabama.

Emissions of particulate matter result from the sawing and sanding of wood as a part of cabinet production. These fugitive dust emissions are controlled by a centralized dust collection system. Emissions of Volatile Organic Compounds (VOCs) result from the surface coating operations. The paint booth is fitted with paint arresting dry filters in the spray booth exhaust.

Natural Resources is proposing to issue an Air Permit that includes requirements for fugitive dust control and proper operation and maintenance of the dry filters. Record-keeping requirements are also included in the Draft Permit.

A public comment period, which begins upon publication of this Public Notice, has been established in order to give interested individuals an opportunity to provide additional information or comments. If significant comments are received, a hearing may be scheduled.

Information regarding emissions, applicable air pollution control regulations, and emission controls, as well as a copy of the Draft Permit is available at the Huntsville Natural Resources office or by contacting Natural Resources at (256) 427-5750. Any person wishing to provide written comments may do so by writing Scott Cardno, Natural Resources Division, City of Huntsville, P.O. Box 308, Huntsville, Alabama, 35804. All comments must be received by 5:00 P.M. September 9, 2021, or 15 days from publication of this Notice, whichever is later.

The scope of this public comment period is limited to air pollution and its effects. Comments relative to site selection or economic and social impacts are not within the scope of this public comment period.
