NOTICE OF PUBLIC COMMENT PERIOD REGARDING APPLICATION FOR AIR PERMIT FOR A CONCRETE BATCH PLANT FACILITY IN HUNTSVILLE, ALABAMA

Moon Concrete Services, Inc. has applied to the Division of Natural Resources for an Air Permit for a central mix concrete plant located at 419 Blake Bottom Road in Huntsville, Alabama.

Emissions of particulate matter will result from concrete production. Fugitive dust emissions will be controlled by wet suppression and particulate emissions from filling the cement silo, fly ash silo, and cement weigh batcher will be controlled by cartridge filters.

Natural Resources is proposing to issue an Air Permit that includes requirements for fugitive dust control and proper operation and maintenance of the cartridge filters. Record-keeping requirements are also included in the Draft Permit.

A public comment period, which begins upon publication of this Public Notice, has been established in order to give interested individuals an opportunity to provide additional information or comments. If significant comments are received, a hearing may be scheduled.

Information regarding emissions, applicable air pollution control regulations, and emission controls, as well as a copy of the Draft Permit is available at the Huntsville Natural Resources office or by contacting Natural Resources at (256) 427-5750. Any person wishing to provide written comments may do so by writing Scott Cardno, Natural Resources Division, City of Huntsville, P.O. Box 308, Huntsville, Alabama, 35804. All comments must be received by 5:00 P.M. August 30, 2021, or 15 days from publication of this Notice, whichever is later.

The scope of this public comment period is limited to air pollution and its effects. Comments relative to site selection or economic and social impacts are not within the scope of this public comment period.
